

We couldn't be any happier with the remodeling/addition project that Dorcus Construction just completed for us! From the initial concept they developed, to the final touches to complete the job, the team exceeded our every expectation. We thought our little rancher had possibilities, but we never imagined it could be transformed into the gorgeous open floor plan it has become! Ken Abrecht took our vague ideas, listened to what we wanted, and created a design that is absolutely perfect for us.

Our job was completed weeks ahead of schedule, and the only extra cost we incurred was for changes we requested. Every person who worked on our project, including subcontractors, was courteous, friendly, polite, and professional, and we were comfortable having any of the Dorcus team in our home at all times. Gerry, Garrett, and Ken were always available to answer the phone when we called the office. The owner himself was on site every day, and was always available to answer our questions. We thank you all for your part in helping to create our wonderful new home! We will call on you again if we have any future projects, and we will gladly recommend Dorcus Construction to anyone looking for a professional, high-quality contracting company.

Thanks! Marcia & Gary Bell
